

GROMEX[®]

YOUR PARTNER FOR THE MARITIME SEALING TECHNOLOGY

Our Company

OUR GROUP OF COMPANIES

**ONE
LOCATION
3 STRONG
PARTNERS**

GROMEX

Our brand for the maritime sector.

Since 1975

Dichtungspartner Hamburg

Our brand for the automotive sector.

Since 1986

Höfert

Our brand for the general industry.

Since 1963

Our Company

IN THE HAMBURG METROPOLITAN REGION

More than 60 years
of experience

12,000 m²
area

40,000
products

100+
employees

13
Nationalities

EFFICIENT WORKING

Quality control

AUTOMATIC & MANUAL CONTROL

Quality control

QUALITY IS OUR TOP PRIORITY

PPAP

Production Part Approval Process
Sampling process for serial parts in
the automotive sector

Conformities

Intensive monitoring of the requirements
of various regulations and directives and
their implementation

Certificates

EN ISO DIN 9001: 2015 TMS TÜV SÜD
EN ISO DIN 14001: 2015 TMS TÜV SÜD

Certificates

IATF 16949: 2016
PRODUCTION OF RUBBER GASKETS

Industries & solutions

AREAS OF APPLICATION

Shipping industry

- Exceptional mechanical load
- Lubricants
- Heavy fuel oil (HFO)

Automotive industry

- Sealing engines to the outside
- Keeping water and oil apart
- Effective seals in difficult applications

General Industry

- Comply with hygiene standards
- Aggressive media
- Extreme temperature
- Difficult surroundings

Oil & gas Industry

- High-performance O-rings made of elastomer and thermoplastic material
- Resistant to aggressive media

Mining Industry

- Extreme working conditions
- Soil and mud
- Exceptional mechanical load

Products

Our Products

O-RINGS

O-Rings

The most frequently used seal components.

- O-Rings acc. to DIN ISO 3601-1 (replacing 3771)
Various characteristic N+S
- Inner diameter 0,5 – 2,000mm
- Standard and individual compounds
- O-Ring Boxes
- Cord Rings acc. to DIN ISO 3002-1, KI.E2

Our Products

PISTON RINGS

Piston rings

Piston rings play a key role in the service life and efficiency of the engines.

- GROMEX is the biggest stockist in the IAM worldwide
- Our Portfolio:
 - Piston rings for var. 4 stroke engines
 - Piston rings for hydraulic machinery
- Piston rings made in Germany

Our Products

MECHANICAL FACE SEALS

Mechanical face seals

The GROMEX assortment includes mechanical face seals for:

- Tracked undercarriage
- Conveyor system
- Gearboxes
- Mining machinery
- Blenders
- Tunnelling machinery
- Pellet mills
- And much more

General Industry

Mining

Hydraulic Industry

Agriculture

Our Products

FLAT GASKETS

Flat gaskets

Flat gaskets usually belongs to the static gaskets and are mainly required in apparatus or pipeline constructions.

- Standard sizes acc. to the DIN norm are usually on stock
- Possible customised production according to customer requirements with technical drawing

Material:

- Elastomers
- PTFE
- var. Fibres
- Metal / Copper

Our Products

GASKET SETS

Gasket sets

We assemble complete sealing and repair sets for engines, pumps, filters, separators, hydraulics and construction machinery, among others.

Engines

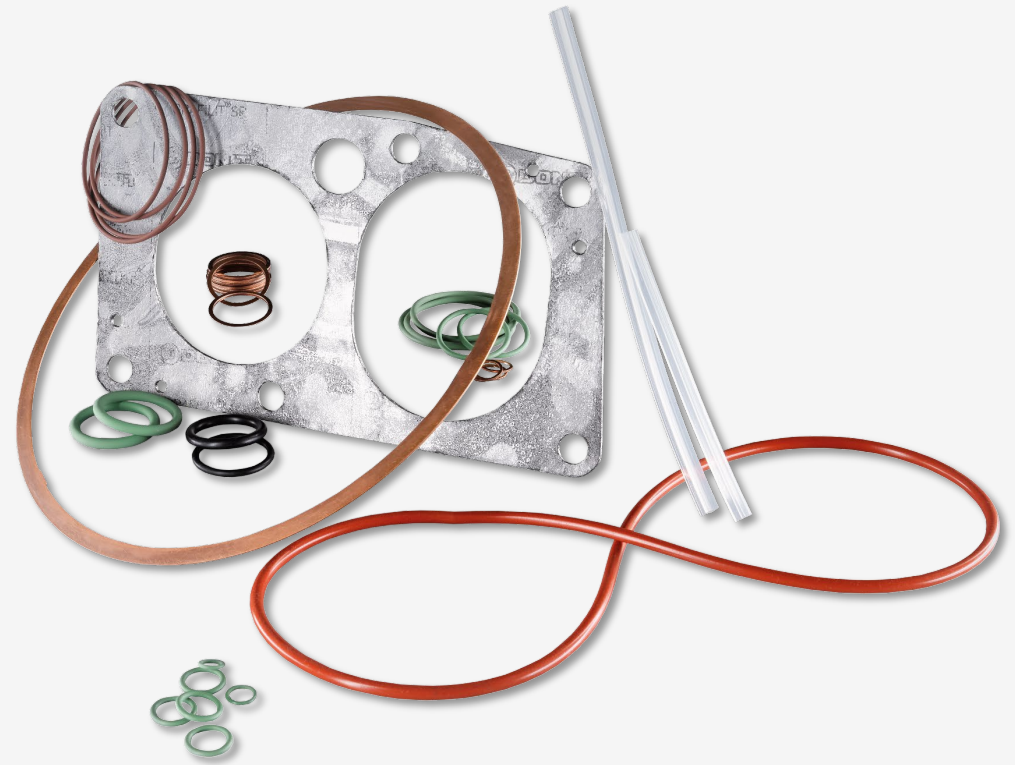

- MAN
- MAK
- Wärtsilä
- Deutz / MWM
- uvm.

Filter

- Boll & Kirch

Separators

- Westfalia
- Alfa Laval

Hydraulic Industry

Biogas plants

Power plants

Our Products

HYDRAULIC GASKETS

Hydraulic gaskets

Applications in which lifting movements are predominantly performed utilise the power of hydraulics

- Extreme Arbeitsbedingungen & hoher Druck
- Verunreinigung durch Schlamm & Staub

Most common in hydraulics

- Rod seals
- Piston seals
- Guide elements
- Groove Rings
